## WELCOME MESSAGE FROM THE CONGRESS PRESIDENT

Dear Colleagues, Dear Friends,

next spring, for the first time in conjunction with the IFSO European Chapter, I will host, in Naples, the 2<sup>nd</sup> Mediterranean Obesity Surgery Summit (MOSS) combined, as a tradition, with the Bariatric and Metabolic Live Surgery Symposium, on May 11–13, 2017. As usual, at the University Hospital “Federico II”, leading surgeons from all over the world will perform the most advanced laparoscopic techniques for primary and revision operations, but, this year, we also want to give you the chance to present your studies and share your views with colleagues from all over the world. The venue is exciting, the topics are terrific and a massive amount of knowledge and new information will be spreading.

Join us in Naples!

**Luigi Angrisani**

President of the IFSO-EC Symposium

## WELCOME MESSAGE FROM THE IFSO-EC PRESIDENT

As current president of the IFSO-EC, it is my privilege to announce and invite you to the first IFSO European Chapter Symposium, which will be held together with the 2<sup>nd</sup> Mediterranean Obesity surgery summit and the Bariatric and Metabolic Live Surgery symposium in Naples, May 11–13, 2017 under the Presidency of Prof Luigi Angrisani.

During the past decades, European specialists, both surgeons and non-surgeons, have played a major role in the development of one of the leading fields in modern surgery, bariatric and metabolic surgery. Nowadays, the IFSO-EC is the largest chapter of the IFSO in regards of the number of adhering countries. For these reasons, but also and mainly to provide our members with a yearly platform within Europe and the Chapter to present their results and exchange views with colleagues, IFSO-EC has decided to hold a symposium each year when the biannual IFSO-EC congress does not take place, the next one being scheduled in May 2018. It is therefore an honour for me to welcome you to this first IFSO-EC symposium in Naples, and to encourage everyone active in the bariatric/metabolic field to attend and actively participate and present their latest results and views.

**Michel Suter**

President, IFSO European Chapter

## SYMPOSIUM TOPICS

- **Metabolic mechanisms of surgeries, gut microbioma and bile acids**
- **Safety and training in bariatric and metabolic surgery**
- **Metabolic surgery and NASH**
